### **PUBLICACIONES**

- Local completeness, Pareto efficiency and Mackey Bishop-Phelps cones  
E. Accinelli; A. García  
Journal of Dynamics and Games. Vol. 8 Num. 1, (2019) pp. 19-25  
doi. 10.3934
- On quasi drop property of unbounded sets in Fréchet spaces  
A. García. Scientiar Mathematicae Japonicae Vol. 81 Num. 2; (2018) pp. 195-202  
(No tiene doi)
- Quasi drop properties, (a)-properties and the strict Mackey convergence  
A. García. Scientiar Mathematicae Japonicae Vol. 78 Num. 3; (2015) pp. 243-249  
(No tiene doi)
- Existence of a Walrasian equilibrium in locally convex topological vector spaces with interdependent utility functions. E. Accinelli; A. García; M. Torres  
Theoretical Economics Letters 2017, 7, 35-48
- An extension of Ekeland's variational principle to locally complete spaces.  
C. Bosch, A. García, C.L. García  
J. Math. Anal. Appl. 328 (2007), no. 1, 106–108.
