Libros

- Introducción a la optimización no lineal. Aportaciones Matemáticas, serie Textos de la Sociedad Matemática Mexicana: No. 34: (2009) 196 páginas ISBN 978-968-36-3591-4. Editorial Reverte.
- Elementos de la Teoría de Conjuntos y de la Topología en la Teoría del Equilibrio General. Publicado por editorial EON, México, (2005). ISBN 9706549579.

Capítulos en libros

1. "On the dynamics and effects of corruption on environmental protection." Elvio Accinelli, Edgar Carrera, Laura Policardo, Modelling, Optimization and BioEconomics, Series: Springer Proceedings in Mathematics & Statistics, Vol. 73 Ch. 3. June 2014. ISBN 978-3-319-04849-9
2. "In Dynamic, Game and Science" (in Honour of Maurício Peixoto and David Rand) Series: Springer-Verlag. Proceedings in Mathematics, Eds: Peixoto, M.; Pinto, A. and Rand. (2011):
 - A Classification of infinite dimensional Walrasian economies and the economic crisis" Accinelli, E. and M. Puchet. Vol. 2 ch 4. pag 55-78.
 - Microeconomic Foundations of the Social Crisis" Accinelli, E. and L. Plata. Vol. 2 ch 3. pag 42-54.

1. “An extension of the Sard-Smale Theorem to convex domains with an empty interior” Accinelli, E. Covarrubias, E. Journal of Mathematical Economics. Vol. 55, 12/ 2014, pag. 123–1282
2. “The equilibrium set of infinite dimensional Walrasian economies and the natural projection” Accinelli. E. Journal of Mathematical Economics, vol. 496 pag 435-508 12/ 2013.
3. “The Evolutionary Game of Poverty Traps.” Accinelli E,; Carrera, E. The Manchester School, Special Issue on Poverty Traps Vol. (80)/4, pag. 381-400. (2012)
4. “Corruption driven by imitative behavior” Accinelli E.; Carrera, E. Economics Letters vol. 117, pag. 84-87; May 2012. ISSN: 0165-1765.
5. “Strategic complementarities between innovative firms and skilled workers: the poverty traps and policymaker's intervention.” Accinelli, E. and E. Carrera. Structural Change and Economy Dynamics, 22, pag. 30-40 (2011) .
